Searching for an Osteosarcoma Cure in Memory of Patrick Lawrence Newman

Patrick L. Newman was the son of Michael ('93) and Elizabeth [Panzica] Newman ('91) of Raleigh, NC. Tragically he passed away February 10, 2025 after a heroic battle with relapsed osteosarcoma. He was a championship rower with dreams of joining Notre Dame Crew. Following three generations on both family sides, Patrick was accepted for the class of 2029, but never had the chance to enroll. A stellar student, until death his life's plan was to graduate from ND then earn advanced microbiology degrees to devote his life to doing research for less toxic, more effective therapies and a cure for bone cancers still plaguing so many young people today. To join Patrick's cause and sponsor others in that research, **please scan this code** to donate thru MIB Agents, a leading pediatric osteosarcoma nonprofit dedicated to "Making It Better" for pediatric cancer patients.
